

HOMEGROWN

-Services & Investment Guide-

Creating a meaningful, sacred place

I have always believed in HOME, full of life and the ones we love. Home is the place that invites us in, offers peace, and refreshes us to go out into the world and take on another day. I truly believe our experiences within our homes have a lasting impact on us, it molds us into who we become today. Designing is my way to help you re-evaluate the perception of home in a way like never before. We all have dreams, we all have purpose that connects with those dreams, and mine is to curate homes that have a lost purpose, restore that hope and touch lives along the way!

By wisdom a house is built, and through understanding it is established;
through knowledge its rooms are filled with rare and beautiful treasures.

-Proverbs 24: 3-4

Is HGD the Right Choice For You?

Is HGD is the right choice for you

When asked "what style do I consider myself as a designer?", I have found it is a bit more complex than a one word answer. In my designs I tend to gravitate towards neutral tones: whites, creams, greige, blacks, and glowing wood tones. I incorporate a lot of texture to add coziness and warmth. Starting with an elevated rustic approach and mixing new with vintage, helps my designs

achieve depth and character. This also creates a curated timeless look. My main focus is to let the client and the home itself speak through conversations we have, with each directing us towards a characterized "style". By combining those aesthetics with my natural gravitations, we can achieve the design that best suits you! My goal for every project is to create a space that is beautifully curated for families to thrive and feel comfortable in and that can come in all different shapes, budgets, and styles!
